

Belgian Particle, Colloid and Interfacial Society

Dear Colleague,

Thanks for the interest in our Society.

We are a non-profit organization with the objective to stimulate the development of Particle Technology and Colloid Sciences. We are therefore forming a network of industrial and academic researchers active in the field of particle and colloid science and technology (we currently have approx. 150 members).

Practically, we organize seminars and courses and bring researchers together in informal meetings.

You can find an overview of our past activities on our website under 'activity reports'.

www.bepcis.be

We have a number of sponsors who support us with a donation of 250 Euro. These funds are used to support our (free) seminars and to cover our administrative costs.

As sponsor, your logo (with link) will be included on our website, and you'll obviously get access to all our activities.

In case you decide to become a sponsor, please contact us (chairman@bepcis.be).

You can become a sponsor by transferring 250 Euro on bank account # 979-9983500-71 of BePCIS FV (Dries 13, B-9810 Nazareth. Argenta bank; Swift nr. ARSPBE22; IBAN-code BE49 9799 9835 0071).

Please also forward us your logo and the link to your website so that we can include these on our sponsor site.

With kind regards,

Hugo Demeyere
Chairman BePCIS
